---

## ABOUT

A software developer with hands-on experience in building web applications with **TypeScript, JavaScript, React, Next, Vite and etc**. My objective is to improve and refine my coding skills while creating efficient and user-friendly software solutions.

## EXPERIENCE

**Frontend Software Engineer** - At Octaldev Solutions | Remote

*Feb 2022 - Jan 2023*

- Pivotal role in the frontend development of [dreambuffets.com](https://dreambuffets.com). Responsible for replicating **Figma**-based website designs into functional web interfaces and integration with backend API's.
- Headed company initiatives, including crafting **React** project boilerplates and a comprehensive component library with integrated data formatting for various data types and **TanStack Query** for API calls.

**IT Extension Project Monitor** - At IFMA | Porto Franco, MA

*May 2018 - Oct 2018*

- Contributed expertise from the Informatics Technical Course to diverse student cohorts
- Provided mentorship and supervision on their tasks.

## EDUCATION

**Bachelor of Science in Computer Science (Ongoing)**

Wyden | Remote | Feb 2023 - Present

**Informatics Technician**

IFMA | Porto Franco, MA | Feb 2018 - Oct 2021

- Demonstrated exceptional performance in Programming coursework.
